CERTIFICATE-LEVEL PROGRAM DIALYSIS TECHNOLOGIST TRAINING PROGRAM

What is dialysis? _____

Dialysis consists of filtering blood to remove waste and then reintroducing the blood back into the circulatory system. The goal of treatment is to help patients with end-stage renal diseases (ESRD) live healthy, active lives.

DIALYSIS TECHNICIANS

- Conduct hemodialysis treatments on patients
- Set up and monitor dialysis equipment
- Interpret dialysis prescriptions
- Take vital signs
- Administer local anaesthesia and venipuncture

INDUSTRY CERTIFICATIONS

- **BONENT** certification as a **Certified Hemodialysis Technologist/Technician (CHT)**
- **National Certified Phlebotomy Technician (NCPT)** from the **National Center for Competency Testing (NCCT)**
- **Registered Phlebotomy Technician (RPT)** from **American Medical Technologists (AMT)**, after completion of 50 venipunctures and 10 skin punctures, which may require additional clinical experience after program completion

There is no mandatory requirement that dialysis technologists hold a license in the states of Illinois, Wisconsin or Indiana to practice. However, professional certification is generally required to qualify for employment in most clinical settings.
