<https://dsps.wi.gov/Pages/Professions/RadiographerLicensed/Default.aspx>
- ✓ MCC was unable to determine if completion of MCC's Associate of Applied Science in Diagnostic Medical Imaging Radiography program meets the state educational requirements for licensure or certification for Radiographer in other 47 states and the U.S. territories.

For more information please contact Danielle E. Dertz, BA, R.T.(MR)(ARRT), Program Director; 312-236-9000 ext. 1001; ddertz@mccollege.edu

Please read the overview of licensing or certification requirements for Radiographers below.

Please be aware that there may be additional professional licensure or certification requirements like professional examinations, continuing education, background checks, years of work experience, fingerprinting requirements, etc. which are not covered by academic program's curriculum. Additional requirements may differ by state. Current and prospective students are strongly encouraged to contact

the appropriate licensing or credentialing agency for their location or the state at which they desire to be licensed or certified to seek information and additional guidance.

Midwestern Career College strives to ensure that the information provided on this page is accurate and up to date. However, as professional licensure and certification requirements are subject to change at any time, students are strongly encouraged to regularly check with the certification boards and other credentialing agencies to confirm professional licensure and certification requirements for their program of study.

The links and information below lead to websites and content created by other public and private organizations. These links are provided for the user's convenience only and are not part of the MCC's Professional Licensure or Certification Disclosure.
