CERTIFICATE-LEVEL PROGRAM

PHLEBOTOMY

WHAT IS PHLEBOTOMY?

Midwestern Career College's 8-week Phlebotomy Technician Program teaches students to draw blood from patients to be used for tests, transfusions, research, or blood donations. Phlebotomists work within the medical world, mainly in hospitals, medical and diagnostic laboratories, blood donor centers, and doctors' offices. Blood tests provide the foundation for detecting a wide range of medical issues, and through our program, you will become one of the trained professionals specially qualified to ensure proper technique and handling.

CURRICULUM HIGHLIGHTS*

PHL115 Phlebotomy Technician / *Curriculum is subject to change. See catalog for current course offerings.

PROGRAM OBJECTIVES

The Phlebotomy Technician program prepares students to:

- Learn the proper techniques of asepsis.
- Perform venipuncture techniques by using multisampling needles, winged infusion sets, and a syringe.
- Identify different types of blood collecting tubes and the additives and their functions.
- Discuss components of blood and use of blood specimens in the laboratory.
- Discuss the different departments of the laboratory and the tests performed.
- Explain the collection techniques of different types of urine specimens.
- Learn the techniques of dermal punctures and point of site
