KEYNOTE SPEAKER

Dr. Maya Green

Howard Brown Health

Maya Green is a proud south side Chicagoan, who formerly served as an educator in the private and public school sectors. After obtaining her MD/MPH with a focus on Health Policy and Administration at the University of Illinois Chicago, she completed a residency in family medicine at the University of Miami and a specialty fellowship in HIV medicine at Rush University Medical Center.

Maya previously worked as an HIV specialist at the Ruth M. Rothstein CORE Center, and now she serves as the Chief Medical Officer for Howard Brown Health. Her client panels include pediatric, adolescent and adults who speak Spanish or American Sign Language and people who experience substance use disorder. Dr. Green is the founder of HIV Real Talk – NFP and a board member of Chicago Task Force Prevention & Community Services. Both of these organizations focus on decreasing disparities among Chicago's marginalized communities.

Maya Green, MD, MPH
Chief Medical Officer

INTERESTS

- Founder of HIV Real Talk, a community-based HIV screening and prevention project in high-risk communities
- Conversational Spanish
- Pediatrics

*"Education is the key to unlocking the world,
a passport to freedom."

STUDENT SPEAKERS

Naval Benzina

2022 Graduate – AAS in Magnetic
Resonance Imaging Technology

As an immigrant to the United States, Naval has struggled and worked her way through various careers never forgetting about her passion for medicine and helping others. As fate would have it, the information about Midwestern Career College reached Naval. She took a leap of faith and through hard work and dedication finished her studies and acquired her ARRT certification. She is happy that the amazing team at Condell Hospital in Libertyville, the place where she completed her clinical hours, has embraced her as one of their staff. A dedicated mother of two, Naval and her husband are getting ready to welcome their third child early next year. In her free time, she enjoys cooking for family and friends as well as painting.

Her story is one full of hope and her message is to never give up – no matter what!

Monica Loayza

2022 Graduate - AAS in Marketing

Monica has built a successful career in Psychology in her home country, Peru. With more than 5 years of experiences in Human Resources Management, she was seeking a career complement and still growing in the corporate world. Monica decided to return to school, this time at an American institution, Midwestern Career College, to get the degree of Associate of Applied Science in Marketing. It is here and during this time that Monica chose to make the most of the opportunities before her. By always putting forth her best effort, and working hard, Monica was able to get her U.S. degree and is currently working for our institution here at Midwestern Career College. Through this opportunity, she recently got her Optional Training Program (OPT) and was promoted into the role of Career Services Coordinator.

Brendan Wolfe

2022 Graduate - Electroneurodiagnostic (END)
Technology Program

A native of the Northwest suburbs of Chicago, now living in Wicker Park, Brendan describes himself as the son of two wonderful parents and the eldest of four children with a younger sister and two younger brothers. He obtained a B.S. in Business from the University of Dayton in 2012. Brendan is an avid traveler, sports fan, and concert-goer.

Brendan has epilepsy and in July 2021 underwent a hippocampectomy in hopes of eliminating his seizures. He has been seizure-free for over a year. This was also the catalyst in his decision to go back to school and change careers. Having gone through weeks' worth of EEG himself, he is glad to have found the END program at Midwestern Career College and he looks forward to working in the Electroneurodiagnostic field wherever around the world it may take him.
